## Summary

Web developer recently graduated from the intensive Le Wagon bootcamp, where I created hands-on projects using JavaScript, Ruby on Rails, HTML and CSS. I'm currently specializing in React, Next.js, and JavaScript, and working as a freelancer.

Before transitioning to tech, I worked for over 10 years in digital marketing and social media, and I also have experience in film directing and philosophy - areas that shaped my analytical skills, creativity, and strategic vision.
